Abstract

Attitudes of the members of the youth centers and young women in the South toward the Police man
Waleed S. Al Badaenh
Mu'tah University, 2007

The study aims at knowing the attitudes of the members of the youth centers and young women in the South region about the police man. To achieve the objectives of the study, a developed questionnaire was used to gather data and distribute them on the members of the study sample. The study sample was chosen randomly from the young men and women and the total is (498). Descriptive and analytical statistics are used to analyzed to data setThe results of the study are the followings:-

1. There is a significant relationships significant between the Government& fathers level of education and responders attitudes toward police man characteristics.
2. There is a significant statistical relationship between fathers level of education and respondents attitudes toward the relationship between citizens and police man.
3. There is a significant statistical relationship between fathers level of education and respondents attitudes toward the duties of the police man.
